REAL GHOSTS - REAL INVESTIGATORS - REAL FRIGHTENING

Join the East Coast Transcommunication Organization (ECTO) for a Ghost Hunt at America's Stonehenge. ECTO is a paranormal group based in Mass and New Hampshire. They are comprised of 6 members with all areas of expertise. These areas include EVP, EMF Detection, Photography, Videography and Dowsing/Pendulum use. The group was formed to either prove or disprove the paranormal by using scientific methods and electronic equipment.

The evening will begin at 6pm with a brief discussion in our visitor's center of findings from a recent investigation that ECTO conducted. Ghost Hunting pointers and equipment will also be discussed. ECTO will then lead you on an investigation of this 4000 year old archaeological site.

In ancient times, it is believed that around the time of Halloween the veil between the world of the living and the dead is thinnest, allowing spirits and other supernatural entities to pass between the worlds to socialize with humans.

Please bring any equipment you may already have, cameras, tape or digital recorders, flashlights, dowsing equipment, etc. Dress warmly as you will be outside for roughly 2 hours. Cider and snacks will be provided.
